4 **SECTION VII - COMMUNITY FACILITIES PLAN ELEMENT**
5

6 **INTRODUCTION**
7

8 Facilities, such as schools, fire, police and first aid services, libraries, cultural facilities and
9 governmental offices that are provided to meet residents’ community services expectations are
10 an important element of the quality of life. Both publicly and privately owned facilities are
11 included. Parks and recreational facilities, however, are discussed elsewhere in an Open Space,
12 Conservation, Parks, Recreation and Historic Preservation Plan. This Community Facilities Plan
13 contains an inventory of community facilities and services and evaluates them in terms of current
14 and anticipated needs. That evaluation considers the relationship of community needs to the
15 availability of other facilities in nearby communities that may also meet needs of Livingston
16 residents. The nature and extent of facilities needs vary with changes in demographics and in the
17 range and depth of community needs. Livingston Township is experiencing growth in both
18 school age populations and in senior and elderly populations. However, total population is
19 below historic highs. Public and quasi-public facilities are shown on the Community Facilities
20 Map (Map E).
21
22

23 **COMMUNITY NEEDS ANALYSIS**
24

25 **Administrative Services**

26 Most Township administrative offices are located in Town Hall, at 357 South Livingston
27 Avenue, in the William H. Clark Municipal Complex. Many governmental facilities are
28 outdated, crowded and inefficient. The Township Council has conducted extensive studies of the
29 adequacy of and needed improvement to that building and has instituted a facilities improvement
30 program that has included relocation of the Health Department and the Recreation Department to
31 the new Senior and Community Center
32

33 **Recommendation:** Relocate additional administrative functions to the
34 new Senior and Community Center.
35

36 **Recommendation:** Complete and execute plans for replacement of the
37 Town Hall building at its present site.
38

39 **Educational Services**
40

41 **Public Schools**
42

43 The highly rated public school system, serving 5,451 students in 2006-2007, comprises six
44 elementary schools, two middle schools, one high school and one alternative school.

45 Elementary Schools (Grades K-5)

16
17 Administration 11 Foxcroft Drive

18
19 The public schools system also offers a Monday through Thursday afternoon integrated
20 preschool program for both classified and non-classified children. Because of limited capacity,
21 regular education enrollment in the program is limited and is determined by lottery.

22
23 Enrollment history and forecasts provided by the Board of Education are shown in Tables VII-1
24 through VII-4.

To maintain the excellence of its programs, the Board of Education projects enrollments and reviews the adequacy of its facilities. Accordingly, it has recently completed or currently has under construction, improvements at the following schools: Burnet Hill Elementary, Collins Elementary, Amos W. Harrison Elementary, Hillside Elementary, Mt. Pleasant Elementary, Heritage Middle School, and Livingston High School.

Recommendation: In planning expansion or construction of facilities, the Board of Education should consider opportunities to coordinate efforts, or share facilities, with the Township.

Recommendation: The Board of Education should make every reasonable effort to ensure that on-site parking at its facilities is consistent with the requirements applicable to privately owned like facilities.

Recommendation: In planning expansion and construction of facilities the Board of Education should provide lead time

1 sufficient to enable the Planning Board to conduct
2 its review pursuant to the mandate of the Municipal
3 Land Use Law, N.J.S.A. 40:55D-31a and Section
4 170-12.F of the Code of the Township of Livingston.
5

6 **Recommendation:** Whenever the Board of Education prepares a long-
7 range facilities plan it should provide enough lead
8 time for the Planning Board to complete its review
9 as provided in the Educational Facilities Construction
10 and Financing Act., N.J.S.A. 18A:7G-4g and the Municipal
11 Land Use Law, N.J.S.A. 40:55D-31b.
12
13

14 **Private Schools**

15
16 Aquinas Academy Grades K-8, located on the campus of St. Philomena's
17 Roman Catholic Church at 388 South Livingston Avenue.
18

19 Gibbs College Located at 630 West Mt. Pleasant Avenue, this school offers a
20 variety of Associate Degree and Certificate programs.
21

22 Joseph Kushner Hebrew Grades Pre-K through 12, located at 110 South Orange
23 Academy & Rae Kushner Avenue.
24 Yeshiva High School
25

26 Newark Academy Grades 6-12, located at 91 South Orange Avenue.
27

28 Stepping Stones Children up to age 9 with developmental disabilities, located
29 at Trinity Covenant Church, 343 East Cedar Street.
30

31 The Darcy School Grades K-6, located at 346 East Mt. Pleasant Avenue
32

33 The Horizon School Grades K-8, located at 51 Old Road, and Grades 9-12, at 71-77
34 Okner Parkway, provide academic, vocational and rehabilitation
35 programs for children and young adults with cerebral palsy and
36 other disabilities.
37

38 There also are numerous day care and nursery schools, both non-profit and for profit.
39
40

41 **Emergency Medical Services**

42 First aid and patient transportation services are provided by the Livingston First Aid Squad, a
43 voluntary organization and a member of the New Jersey State First Aid Council. It currently has
44 34 active members. The First Aid Squad building is owned by the squad and is at 50 South
45 Livingston Avenue, adjacent to and sharing a parking lot with the fire department's Headquarters
46 Station. Until organization of the First Aid Squad in 1950, first aid was provided by the

1 Township's volunteer firefighters. Many of today's Squad members are also volunteer
 2 firefighters.
 3 The First Aid Squad operates four (4) ambulances, as well as a van for non-emergency patient
 4 transportation, and serves the community 24 hours per day, every day of the year. In the early
 5 decades of its existence, the Squad responded to an average of 500 calls of all types each year.
 6 The most-recent statistics available are shown in Table VII-5.

7
 8
 9 Table VII-5

13 * Through June 30, 2007

14
 15 Back-up, or joint response, is provided, on a case-by-case basis, by professional emergency
 16 medical technicians operating mobile intensive care units dispatched from the St. Barnabas
 17 Medical Center or by other hospitals in area communities.

18
 19 **Entertainment**

20 Livingston no longer has a movie house, and does not have any permanent cultural arts/fine arts
 21 facility.

22
 23 **Recommendation:** Efforts should be made to facilitate the establishment of a
 24 motion picture entertainment facility within the Township,
 25 financed by a combination of donations, membership fees
 26 and entrance fees. It should be a small theater, with
 27 sufficient parking on, or convenient to, the site, and
 28 providing local availability of films for both children and
 29 adults, including films not often shown at nearby multi-
 30 screen theaters.

31
 32 **Recommendation:** The Township Council should identify existing structures
 33 which, should they become available, could be converted
 34 into a community cultural arts or fine arts center. The
 35 owners of such structures should be requested to inform the
 36 Township of any plans to terminate or abandon current

operations; so that lease or purchase, or acceptance of donation, of the structure can be considered.

Fire Services

Livingston is served by a volunteer fire department; the efficiency and quality of which results in a high, Class 3, fire protection rating for the community by the Insurance Service Office for fire insurance premium determination. (ISO ratings range from a low of 10 to a high of 1.) The Livingston Fire Department was formed in 1921. It offered ambulance service from 1937 until formation of the separate Livingston First Aid Squad in 1950.

There are 74 officers and members of the Livingston Fire Department. The Chief, the Assistant Chief, and three Deputy Chiefs are chosen from the ranks. Upon assuming their offices, the Chief becomes a full-time salaried employee of the Township and the Assistant Chief becomes a part-time employee. Additional Township full-time employees in the Fire Department are three (3) fire inspectors and a maintenance technician.

The Livingston Fire Department has three (3) strategically located fire stations that provide efficient response times to all neighborhoods.

Charles Schilling Headquarters Station at 62 South Livingston Avenue is near Livingston Center. It contains the Chief's office, the departmental maintenance shop, the Fire Prevention Bureau, and meeting space on the second floor. It houses two Engine Companies, one Truck Company, one reserve engine and one salvage truck.

Northfield Station is in Northfield Center at 2 East Hobart Gap Road, at the intersection of that road and South Livingston Avenue. It has a large meeting room on the second floor and houses the Rescue Company, one Engine Company, and one reserve engine. There is an available bay for additional equipment.

Circle Station is at 389 West Northfield Road, near the Route 10 Livingston Circle. It houses one Engine Company and one salvage truck. This site could accommodate building expansion for one additional bay.

The fire service facilities are currently adequate and no short-term need for expansion has been identified. The vehicles are well maintained, suited to the nature of the community and regularly upgraded or replaced. Mutual assistance agreements are in force with all nearby communities.

Hospitals

St. Barnabas Medical Center

St. Barnabas Medical Center is at 94 Old Short Hills Road, adjacent to the Township’s borders with West Orange and Millburn. It is a major not-for-profit medical and surgical hospital with 645 beds, emergency room, regional burn center, and mobile intensive care services. It also operates a modern ambulatory care center at 200 South Orange Avenue, opposite the Livingston Mall.

Recommendation: A recommendation for re-zoning the Old Short Hills Road property is contained in the Land Use Plan.

Recommendation: St. Barnabas Medical Center should submit a concept plan of anticipated expansion needs to the Planning Board and should update the plan every five years.

Library

The Ruth L. Rockwood Memorial Library is on Robert H. Harp Drive in the Civic Center Municipal Complex. Originally built in 1962, it currently holds over 61,000 titles plus materials in various media and provides numerous on-site community services. Its collections include books in Russian, Chinese, German, Hebrew, Italian, Spanish, Korean, Hindi and Gjarati. A major expansion and modernization is underway. It will almost double floor space and permit the library to provide additional resources, equipment, facilities and services when completed in 2007.

Nursing and Convalescent Homes

Inglemoor Care Center This 120-bed facility is at 311 South Livingston Avenue and provides long-term nursing care, specialized Alzheimer’s care, and progressive rehabilitation.

CareOne at Livingston This facility at 61 Passaic Avenue has 96 long-term care beds and 24 assisted living units.

Police Services

Livingston benefits from a highly efficient and effective police department of 73 in all ranks, one (1) full-time, and one (1) part-time, animal control officer, 13 civilian administrative personnel, and seven (7) matrons. The size of the police force is consistent with Federal Bureau of Investigation recommendations. Growth of the department by 7 additional officers by 2010 is

1 anticipated. In 2005, the Patrol Division responded to 30,808 calls, the Detective Division
2 investigated 1,235 cases, and the animal control officers responded to 1,038 calls.

3
4 The present police headquarters building was constructed in 1962 for a then-projected
5 department of 40 officers. It is now inadequate, in terms of both space for the current and
6 projected manning levels and in terms of the functions that must be performed. Township
7 Council studies have identified the facilities needs of the Police Department and a new police
8 headquarters is to be built at the William H. Clark Municipal Complex, as part of the Township's
9 facilities improvements program.

10
11 The Department also has an armed volunteer Auxiliary Police organization consisting of 20
12 members and six (6) active retired members. The Auxiliary Police assist in traffic and crowd
13 control and patrol services. There are also 46 school crossing guards.

14
15 **Recommendation:** Complete planning and construction of new police headquarters
16 in conjunction with construction of new Town Hall.

17 18 19 **Public Works Department**

20
21 The Road Division of the Public Works Department has a work force of 25 and operates a fleet
22 of vehicles for street maintenance, repair, and sweeping; salt and sand spreading; snow plowing;
23 leaf removal; and forestry services. It is housed at the Township garage at 235 South Livingston
24 Avenue. That facility also serves as a storage site for sand and salt, and as the operations base of
25 the vehicles for maintenance of the water and sewage mains. It is barely adequate for the current
26 levels of operations.

27
28 **Recommendation:** A new Township garage site should be acquired to replace the
29 facility now on Livingston Avenue. Sharing of the new facility by
30 the Board of Education for its buses and vehicles should be
31 considered.

32
33 **Recommendation:** Consideration should be given to construction of a multi-level
34 commuter "park-n-ride" and "kiss-n-ride" facility for users of
35 commuter bus service on the present Township garage site. If
36 constructed, it should include sheltered bus access, retail
37 convenience facilities to serve commuters, as well as other
38 passenger amenities. This facility could also be the base for a
39 shuttle bus service to the train station in Millburn or to other
40 nearby rail stations.

41
42 Such a facility would be consistent with the New Jersey State
43 Development and Redevelopment Plan and with federal
44 initiatives. Federal and state funding or cooperative efforts for
45 such a facility should be explored.

46
47 **Recommendation:** Alternatively, since the present Township garage site is in the

1 B-1 District it could be sold for private development for
2 commercial use, or a combination of commercial and residential
3 use; particularly if the recommendation to permit residential uses
4 above commercial uses along Livingston Avenue in the B-1
5 District is followed.
6
7

8 **RECREATIONAL FACILITIES**

9
10 Recreational facilities of the Township, including those of the Board of Education are discussed
11 in Section VIII – Recreation & Parks Plan Element.
12

13 The West Essex Branch of the Metro YMCAs of The Oranges, located at 312 South Livingston
14 Avenue, is a non-profit recreational facility serving the community. There also are a number of
15 for-profit enterprises in the Township which offer exercise, fitness, training, and conditioning
16 facilities and programs.
17

18 **RELIGIOUS CONGREGATIONS**

19
20 Numerous houses of worship are located within the Township and serve a variety of faiths
21 reflecting the diversity of the Township’s population. Some are shared by more than one
22 congregation.
23

24 **SENIOR AND COMMUNITY CENTER**

25
26 Until 2004, senior citizen needs were served in a number of locations designed for other uses. An
27 extended period of study and public input led to the design and construction of a new facility
28 opened in January of 2004. The Senior and Community Center is on Hillside Avenue on the site
29 of the former West Essex Hospital. The building provides 52,000 square feet of space, including
30 42,000 square feet in current use, with 10,000 square feet available for expansion. The municipal
31 Health Department and Recreation and Parks Department have been relocated to this building.
32

33 The building also houses the Township’s Senior Citizen Coordinator, who supports and
34 facilitates a wide range of activities on behalf of senior citizens and provides referral services for
35 their special health needs. Available programs include the long-standing Motor Meals,
36 recreational and educational activities both within the Center and on field trips, local
37 transportation, and tax return preparation advice. The Coordinator also is an ex-officio member
38 of the Advisory Committee on Senior Citizens; a body of resident volunteers appointed by the
39 Township Council.
40

41 **COMMUNITY FACILITIES GENERALLY**

42
43 **Recommendation:** Governmentally-owned facilities should set an example for all
44 residents by employing energy-saving construction design and
45 operating technologies, by following ecologically positive
46 operating practices such as those recommended by NJDEP, and by

voluntary compliance with tree protection, preservation and replacement requirements contained in the Trees Ordinance codified as Code of Township of Livingston § 170-53 et seq.

THE CIVIC CENTER MUNICIPAL COMPLEX

Earlier planners had the wisdom and foresight to reserve a large area at the center of the Township for civic facilities and activities. That area consists of 104.51 acres owned by the Township or the Board of Education. The elements of the Civic Center Municipal Complex (“Civic Center”) are shown in Table VII-7

Table VII-7
Civic Center Municipal Complex

Block	Lot	Street	Use	Acreage	Owner
04400	00001	S. Livingston Ave	High School	19.70	Bd. of Ed.
04400	00002	S. Livingston Ave	Library, Gazebo, Force Homestead, Pools, Tennis, Basketball, Littell’s Pond, Nature Reserve.	56.62	Township
04400	00061	Bennington Road	Path	0.42	Township
04400	00079	Winchester Road & Madonna Dr.	Green Acres	15.79	Township
04402	00032	Berkeley Place	Recreation (“Barracks”)	0.91	Township
04403	00001	Berkeley Place	Open Space	0.37	Township
04505	00001	Eastbrook Terr.	Open Space	0.72	Township
03100	00055	S. Livingston Ave	Town Hall & Police Hq.	9.98	Township

Recommendation: Effective modernization of facilities in the Civic Center can best be achieved through coordination and joint planning and development by the Township and the Board of Education. Needs of the over-all community should be jointly analyzed so that modernization efforts lead to replacement of outmoded or inadequate facilities within the Civic Center through construction of complementary and shared facilities best-suited to the long-term needs of all Livingston residents.

Recommendation: The Memorial Park is the heart of the Civic Center. Its careful balance of open space and civic improvements, an example of positive planning within the concept now called “Green Acres”, is an iconic image of the community in public eyes. The architecture of the Civic Center Municipal Complex buildings, especially the Town Hall, the Ruth L. Rockwood Memorial Library, and the High School contributes to the identity of the community. Construction, expansion, renovation or replacement of buildings in the complex should be in that same architectural style, and should

maintain the setbacks from streets and roadways that contribute to the openness of the entire setting.

WATER AND SEWAGE FACILITIES

Water and Sewage facilities are discussed in Section VI - Utilities Plan Element.
